

UC Davis Health: Anchor Institution

***How the Long Range Development Plan
works to connect with the City and
rejuvenate the Sacramento campus***

Joel T. Swift, AIA, AUA

***Executive Director of Facilities
Planning/Campus Architect (retired)***

***UC Davis Health
Sacramento, CA***

Agenda

Goals

- Redefining the University in the Community
- University as Anchor Institution for City
- Long Range Development Plan – UA tool
- UA role and lessons learned

AIA HSW components

- History/Preservation
- Design
- Environment/Sustainability
- Legal

Agenda

Part I History & Preservation
Discussion

Part II Design & Sustainability
Discussion

Part III Legal & Community
2020 LRDP
Projects
What's Next?
Discussion

UC Davis Health: Anchor Institution

Part I: History & Preservation

Part I History and Preservation

What are the historical elements?

What are the impacts of change/progress?

How does this shape the community?

What architectural elements can be cherished and how?

How does this shape the anchor institution?

UC Davis Health: Anchor Institution

Part II: Design & Sustainability

Part II Design and Sustainability

Discussion

What are the salient features of the LRDP for an academic medical center? How does that differ from a general campus?

How can the LRDP evolve design goals to meet a changing campus?

How does the LRDP address University and community sustainability goals?

UC Davis Health: Anchor Institution

Part III: Legal & Community

Part III Legal and Community

How does a Regents-adopted plan (LRDP) serve to guide the Campus goals?

What are the challenges and mitigations?

What are emerging issues?

What are you facing with your campus?

What could be done better? How can UA lead the effort?
