Rice's Vision for the Second Century (V2C)

- Increase commitment to research
- Continue to invest in its professional schools
- Provide holistic undergraduate experience
- Increase the size of the university
- Strengthen graduate and postdoctoral programs
- Become an international university
- Foster collaborative relationships with other institutions
- Provide spaces and facilities that cultivate vibrancy and dynamism
- Invest in a select number of interdisciplinary endeavors
- Fully engage with the city of Houston

Rice's \$850M Capital Program

- New collaborative biosciences research facility
- New chilled-water & steam plant
- New faculty and staff childcare facility
- New recreation and wellness center
- New community meeting place and renovation of Central Quad
- New undergraduate engineering laboratory
- Two new undergraduate residential colleges and support facilities
- Additions and renovations to existing undergraduate residential colleges
- New physics research facility
- New data center
- Athletics facility renovation
- New graduate student housing
